About Moon Desks

GUARANTEE—We guarantee each and every article to be strictly as represented and first-class in every respect.

LOCKS—Pedestal drawers lock and unlock automatically; roll tops by action of curtain; flat tops by upper drawer; center drawers have independent flat keyed locks.
Special lock on roll curtains.

CONSTRUCTION—K. D. Every desk can be easily taken apart to pass through narrow passages. Backs of all desks are nicely paneled and finished with the same care as the ends and fronts.

DRAWERS—Have hardwood sides and ends, and are supplied with our special device, which prevents binding and insures smooth, easy running.

K. D. CONSTRUCTION—Secures the lowest freight rate possible.

Careful attention is given to selection of material, workmanship and finish.

Notice to Buyers

Order by Number only.

PACKING—We pack goods carefully according to our judgment either in lumber or burlap and excelsior, unless otherwise ordered, and ship "Released." We do not insure delivery or safe carriage of goods, and our responsibility ceases when same are receipted for in "Good Order" by carriers.

SHIPPING—Goods will be shipped "Knock Down" or "Set Up," as ordered. When form of shipment is not specified we will ship as we think best for customer's interest.

PROMPTNESS—We usually ship with reasonable promptness, but would call attention to the fact that a first-class desk requires time to *rub, polish* and *fit* together, and this cannot always be done in a few hours.

CHANGES—We carry stock only as described. Changes in design or finish cause *delay* and *EXTRA EXPENSE.*

NO CHARGE for packing or cartage.

Grade A

DESIGN—Modern, majestic, massive.

MATERIAL—Selected genuine mahogany or quarter-sawed white oak.

CONSTRUCTION—High grade in every respect, extra heavy double writing bed, massive double deck top. Roll curtain; heavy, dust proof, lock rail built up. Panels built up, cross-banded. All construction lock jointed. Ends and back paneled and finished. Drawer fronts built-up. All drawers have 3-ply built-up *bird's-eye* maple bottom and hardwood (white maple) sides and ends. Extension slides five-ply, built up, centers framed.

ARRANGEMENT—Pigeon hole case has one letter file complete with our patent compressing device; 11 patent drop front pigeon hole boxes 10¾ inches deep; private compartment with special sub-treasury flat-keyed spring lock; card index drawer with follow block attachment. Large center drawer with special flat keyed lock.

PEDESTALS—Twenty inches wide, drawers have movable partitions and are supplied with our special device which prevents binding and insures smooth, easy running.

Seth Thomas Clock.

Cut glass ink fountains and sponge cup on mahogany or quartered oak base.

HARDWARE TRIMMINGS—Are rich dull brass; pedestal drawers have massive cast brass ball and socket pulls. Pigeon hole case drawers and boxes are trimmed with cast brass knob pulls. Pigeon hole boxes have specially designed, hand finished, cast brass label holders.

LOCKS—Pasquil spring lock with flat keys. The special feature of the Pasquil lock is that it locks ends of curtain to arms of desk, thus avoiding the necessity of a strike plate or break in the writing bed.

BASE—Full moulded.

CASTERS—Ball-bearing, steel wheels.

FINISH—Hand polished piano finish, Golden Oak or Rich Mahogany.

K. D. CONSTRUCTION—Can be easily taken apart to pass through narrow passages. K. D. construction secures the lowest freight rate possible.

Our Cabinets are made of quarter-sawed white oak, golden oak finish, highly polished. All cabinets over two drawers high have 3-ply built up paneled ends.

Drawers have moulded fronts, hardwood sides, 3-ply built up bottoms and are made dust proof by our lip front. Bronze label holder pulls, black labels printed in gold. Size of drawer 12 inches wide, 10⅝ inches long and 3¼ inches deep, inside.

The Compressor is made of steel, is a part of the index and not a part of the filing drawer. Each index has its own compressor.

Indexes have 24 leaves, are secured to the index back by wires at two points, being reinforced to prevent pulling out. Indexes which are strung on a single wire have nothing to hold the leaves in place.

Each drawer has a record sheet on which dates of transfers are entered and from which one may refer to any papers instantly, regardless of how long they may have been filed.

In ordering, please state how many drawers you would like the alphabet to cover? How many specials and what? Roll front or plain front? How many drawers wide?

See list for sizes and widths we keep in stock. Other sizes we will be obliged to make to order.

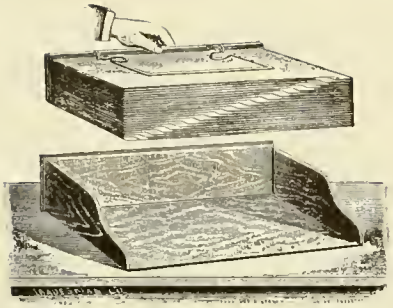
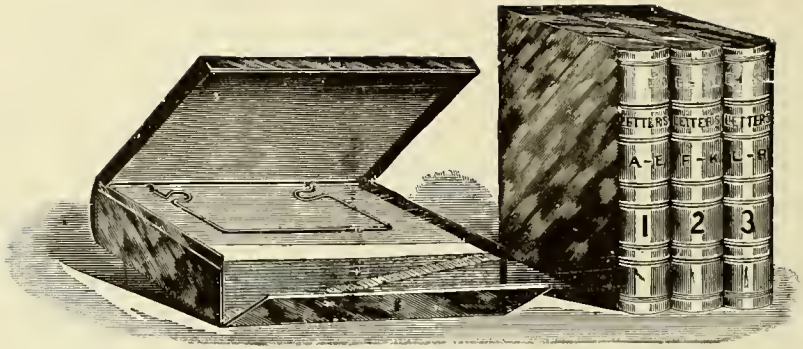
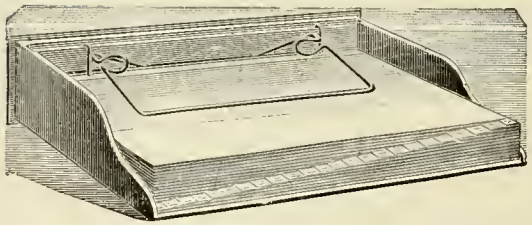
36-drawer Cabinet, 3 drawers wide—
59½ in. high; 44½ in. wide; 18 in. deep; weight, 400 pounds.



Our method of transferring. The back piece to which the spring and index leaves are attached, fits into grooves in the drawer and transfer case. To transfer one has but to lift the index from the drawer and drop it into the case. No stringing of leaves. No machinery.



The above illustration shows an index after it has been transferred to the case. The spring which is a part of the index, is transferred with it and keeps all papers in perfect condition as when in the cabinet.



A file drawer taken from the cabinet when partly filled. The drawer fronts have a lip of ¼ inch all around, making them dust proof when closed.

18-drawer Cabinet with open front.

6-drawer Cabinet, 3 drawers wide, with roll curtain.

9-drawer Cabinet.

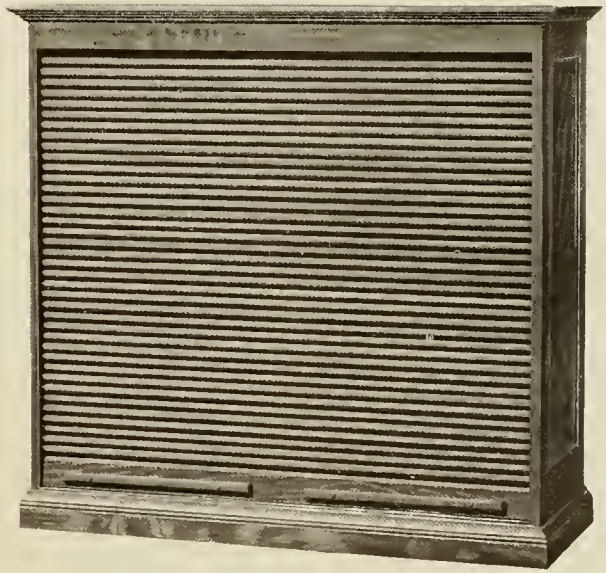
8-drawer Cabinet with open front.

12-drawer Cabinet, 3 drawers wide, with open front. Our 6 and 9 file cabinets, 3 files wide, will fit the top of any ordinary office desk and make a valuable addition thereto.

12-drawer Cabinet, 2 drawers wide.

A roll curtain Cabinet is desirable, as it enables one to keep the contents under lock. Our Curtains are supplied with special flat keyed locks. It always pays to get a Cabinet large enough not to require transferring but once each year.

A 24-drawer Cabinet with roll front, showing curtain raised.



A 24-drawer Cabinet with roll front closed.
